Goal of the Training

The aim of the program is to prepare participants for complex evaluation work in public-private partnership and decent work in global institutions of development cooperation and humanitarian aid.
In theoretical and practical lessons, participants learn in-depth knowledge of M&E with according tools to apply concepts and scientific methods of project evaluation and basic principles of project management.

Target Group

We invite graduates from technical colleges and universities in the fields of social sciences, economics, natural sciences, humanities, engineering, law, geography or with comparable degrees to apply for our program. Especially, individuals with professional experience in development cooperation, humanitarian aid or the non-profit sector in general are addressed. The training also enables to work as self-employed consultant.

Training Procedure

The duration of the training is 6 months in total, including 2 months of internship / job followed by the exam week. Lecturers include professionals from internationally operating institutions and companies. Most of our training programs we conduct with lecturers from the field. The availability of our trainers can therefore change. Changes in the course content are possible. These lecturers also provide a direct contact to the future working environment. A successful access to the job market will be assisted by intensive application trainings and assessment center training and furthermore by an internship in selected institutions and companies.

Training Start: *> February > June > October + > Individual entry*
